

JONATHAN HUSTEAD

Staff Software Engineer

Jacksonville, FL | jonathanhustead.com | linkedin.com/in/jmhustead | github.com/jmhustead81

PROFESSIONAL SUMMARY

Staff Software Engineer with more than twenty years in front-end development. I own UI architecture for enterprise products, with a focus on reusable patterns, accessible interfaces, and systems that stay fast as they grow. Most of my career has been in financial services and healthcare, with earlier years on large-scale e-commerce.

PROFESSIONAL EXPERIENCE

Staff Software Engineer SS&C Advent Jacksonville, FL	Aug 2018 - Present
- Lead UI architecture for enterprise products, working with design and engineering to define shared templates and patterns teams can reuse. - Build production front-end layouts in .NET and .NET Core with MVC, AngularJS, jQuery, and Kendo UI. - Prototype early with stakeholders so we can prove a flow before wiring it to backend APIs. - Push the stack forward where it counts, including .NET Core 10 work and micro-frontend structures when the app shape starts to get in the way.	
Web Marketing Manager Optimum Healthcare IT Jacksonville, FL	Jun 2016 - Jun 2018
- Worked with the Creative Director on design and development for corporate sites and marketing properties. - Built and maintained custom WordPress applications with PHP, jQuery, HTML5, and CSS3.	
Senior UI Engineer Clearsense, LLC Jacksonville, FL	Jun 2015 - Jun 2016
- Helped a young startup grow by shaping the first real UI frameworks instead of one-off screens. - Built interactive prototypes in AngularJS, .NET MVC, and jQuery for executive demos and proof-of-concept reviews.	
Lead Front-End Developer Fanatics, Inc. Jacksonville, FL	May 2010 - Jun 2015
- Worked with IT, design, SEO, and marketing to define front-end layouts and the technical requirements behind them. - Built prototype pages and style systems that kept branding consistent across hundreds of high-traffic sports storefronts.
